

ALL ROUND PROTECTION.

Whether you're looking to protect, insulate or transport, our diverse and flexible range will give you the solution you need. And because we're sustainability leaders in our field, we keep waste to a minimum in all of our products.

BUBBLE WRAP

Available as both rolls and conversion, our range of bubble wrap is lightweight, shock-absorbing, tear-resistant and flexible – giving you peace of mind with every use.

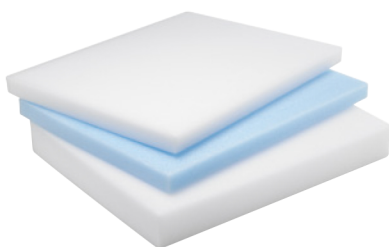

PROFILES

Our flexible, shock absorbent PE foam profile offers you incredibly high resistance to scratches and impacts. Working as hard for our planet as it will for you, it's also non-toxic, HCFC-free and 100% recyclable.

ABRIPROFIPADS

Our Abriprofipads are perfect for cushioning and protecting, making them ideal as an inlay in the corners of boxes. Choose from Light Adhesive for pads that can removed without trace or Permanent Self-adhesive for permanent protection of your heavy goods.

FOAM

Bringing you excellent, cost-effective 'in between' protection for transporting and storing, our foam is lightweight, abrasion-free and odourless. And because it's CFC-free and 100% recyclable, it's kind to the environment too.

OCEAN GREEN®

Our new Ocean Green range is 100% recyclable and based on 100% recycled content. From bubble to profiles, you get all of the quality and none of the waste.
